Developer ¹⁰	Call	\$2,500	1	1	For textbook publishers and curriculum developers	
WM upgrades will be accepted with corresponding valid WM 5.0 serial number (no upgrades from WM4.x or earlier)						
Upgrade from Working Model version 3.0 with a 20% discount off the new price.						
WM upgrades ship with installation instructions and an introductory tutorial. Information about new features is contained in the CD.						
* Single users and Homework users need to provide a machine ID to obtain a node-locked machine-specific installation serial number (not required for Network Licenses).						

1. A copy of the school's purchase order and/or purchasing information must accompany all orders from the school ordering the software.
2. Orders to US and Canada: American Express, Visa, MasterCard, Discover, checks, purchase orders accepted.
3. International orders: American Express, Visa, MasterCard and bank wire transfers accepted. For orders less than \$1,000 shipping charges will be added to the order or a DHL, UPS, or Fedex account must be provided.
4. Sales tax is added unless a **Federal Excise Exempt Certificate** or **Local Sales Use Tax Exempt Certificate** is submitted with the purchase order
5. When possible, orders are shipped within 48 hours.
6. **All sales are final.** If you are tentative about a purchase, ask for a demonstration copy.
7. To trade up from x users to y users (with or without an upgrade), use the following price calculation formula:
Trade-up price = (new y user price – new x user price) + x upgrade price (if applicable)
Example: 10 user upgrade trade-up to a new 20 user: (\$2985 - \$1985) + \$835 = \$1835
8. Resellers are required to fax the school purchase order when placing an order.
9. Homework/Student Editions do not include manuals or technical support and are only for student projects on student-owned computers (not for school computers). Homework/Student Edition licenses are valid for one year and are limited to 50 bodies, 15 constraints, and 15 output meters.
10. Textbook Editions are licensed with a Developer version and are able to play simulations created by a developer (for publishers etc.)
11. Technical support is provided by your software vendor for the first four months of new or upgrade purchases.
12. Multi-user licenses are networkable
13. *For version differences, please see <http://workingmodel.design-simulation.com/faqlist.html#Differences>
14. Students purchases must be accompanied with a valid student ID, proof of current enrollment in an engineering degree-granting program, and contact from the relevant engineering instructor to verify that the product will be used for educational use.
15. Prices and terms are subject to change without notice.
