*Upgrades will be accepted with corresponding valid version 2000 or higher serial number (no upgrades from version 5.x or earlier)*

---

Single User node-locked and homework versions can only be used on a single, identified computer

---

Additional Single user copies can only be added to Single User node-locked versions. A purchase of at least one single user node-locked is a pre-requisite.

---

Single user dongle locked use a hardware locking device. The software can run on any computer in which the locking device is attached.

---

**Notes**

1. A copy of the school's purchase order and/or purchasing information must accompany all orders from the school ordering the software.
2. All software and documentation is delivered electronically. An Email containing download instructions and a serial number will be the sole deliverable.
3. CDs and documentation may be requested at no charge for multi-user seats. One copy of the manual and one CD will be provided.
4. CDs and documentation for single user seats must be ordered separately. Order the extra manual and request a CD.
5. For any CD and Manual requested, shipping charges will be added to the invoice or a UPS, DHL, or Fedex account must be provided.
6. For orders to the US and Canada: American Express, Visa, MasterCard, Discover, checks, and purchase orders are accepted.
7. For International orders: American Express, Visa, MasterCard and bank wire transfers accepted.
8. US Orders: Sales tax is added unless a Federal Excise Exempt Certificate or Local Sales Use Tax Exempt Certificate is submitted with the purchase order.
9. All sales are final. No cost Evaluation versions of all products are available and provide the means for you to determine if the products meet your requirements.
10. To trade up from x users to y users (with or without an upgrade), use the following price calculation formula:
    
    \[
    \text{Trade-up price} = (\text{new y user price} - \text{new x user price}) + \times \text{upgrade price (if applicable)}
    \]
    
    Example: 10 user upgrade trade-up to a new 30 user:  
    
    \[
    ($1,995 - $995) + 415 = $1,415
    \]
11. Resellers are required to fax the school purchase order when placing an order.
12. Homework/Student Editions do not include technical support and are only for student use on student-owned computers (not for school computers).
13. Homework licenses are valid for one year and are limited to 50 bodies, 15 constraints, and 15 output meters.
14. Technical support is provided by your software vendor for the first three months of new or upgrade purchases.
15. Multi-user licenses configured as floating licenses allow simultaneous use up to the number of licenses purchased and require the installation of our network license server.
16. Multi-User licenses configured as node-locked can be installed on N machines, where N is the number of licenses purchased. No license server is required.
17. Multi-user licenses can only be installed at a single geographic location or campus.
18. Multi-user license quantities differing from the listed packages can be purchased. The price is calculated by using the per-user price from the next lower package and multiplying by the number of users. For example, to price a multi-user configuration for 34 users:
    
    30 user per user price = $1,995 / 30 = $66.50 which means the 34 user price = $66.50 X 34 = $2,261
    
    The same methodology applies to the Annual License price.
19. Prices and terms are subject to change without notice.
